International School of Hydraulics

18 - 21 May 2027

• Warka

• Poland

On behalf of the Organizing Committee of the XLIV International School of Hydraulics 2027, we're honored to invite you to support our conference.

We hope that the participation of representatives of companies in our conference will not only raise its attractiveness but also significantly affect the value of substantive and practical dimensions of the presented content. We are confident this cooperation will translate into real interaction between scientists and companies. We are particularly interested in bringing science and practice together on a regular basis, thanks to the participation of business representatives and researchers.

Our conference is held every two years, involving the most prominent experts from around the world. The participants are academics from leading Polish and foreign research centers and universities, as well as companies' representatives. Details on the conference topics, invited speakers, and other information can be found on our dedicated website: ish2027.igf.edu.pl

The XLIV International School of Hydraulics will take place at the Hotel Sielanka nad Pilicą. A boutique hotel with a pool and SPA located in the heart of the Pilica Valley. So close to Warsaw, yet away from the hustle and bustle. On one side, the hotel is surrounded by the green wall of the ancient Stromiec Forest; on the other, by the picturesque meanders of the Pilica river. We have one hundred hectares of green meadows, ready to be explored. Our hotel has access to a vast area of land, as well as a professional horse riding centre.

Partners supporting the ISH2027 Conference are offered several packages. Sponsorship opportunities are divided into the following sections:

MAIN SPONSOR • REGULAR SPONSOR • EVENT SPONSOR • SCHOLARSHIP SUPPORT • MERCHANDISING

We are also open to all other suggestions. All packages may be modified according to the Partner's suggestions, needs, and possibilities. We may also prepare the dedicated package of your choice.

We encourage you to become a Partner of the XLIV International School of Hydraulics!

Monika Kalinowska & Paweł Rowiński, The School Chairs
